

NEW CAPABILITY - COLOR CODED EACH PAIR SHIELDED CABLES

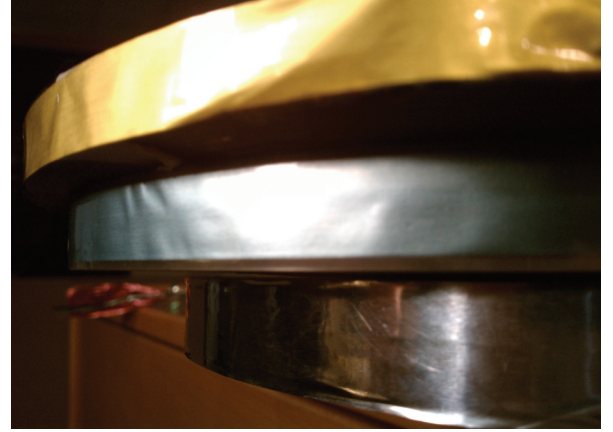

At Aerospace Wire & Cable, we give our customers the ability to offer innovative solutions to users with precise manufacturing specifications. Now you can add an extra solution to your tool box. We are now offering the ability to not only color code the primaries but also the shields themselves for each pair shielded cables.

Benefits of customized colored shielding:

- Unproblematic identification of pairs with similar colors
- Lower risk of pair mix ups
- Quick, easy straightforward pair color distinction

Shielding Options:

- Color options include: Clear, Red, Green, Gold, and Blue.
Other colors available upon request

With the development of our growing industry, we will continue to provide our customers with the highest quality, top of the line wire and cable solutions.

Contact us for details referring to this unique capability.

INTRODUCING A NEW TEAM MEMBER: DEVIN ROSENBERG

We are pleased to announce that we have added a new team member to our sales and marketing team. Meet Devin Rosenberg. A recent graduate of Hofstra University - (BA in marketing), Devin's primary responsibilities at Aerospace Wire & Cable will be to work with customers on a day to day basis and assist in the development of marketing programs / communications designed to make your experience with our company a better one.

Devin's Profile

My Last Meal Would Be: Filet mignon

What I'm Listening To At The Gym: Eye Of The Tiger

You Can Reach Me At: devin@aerospacewire.com

UPCOMING PROJECT: LOUISVILLE GAS & ELECTRIC COMPANY

After a month long review, Aerospace Wire & Cable in partnership with Custom Wire & Cable (Westbury, NY) has been awarded the LG&E Mill Creek Station project. The details of the project include manufacturing 600V industrial cable insulated with ETFE (TEFZEL) in various pair and traid counts. Custom cable features include Aluminum / Nomex shield, numbered marker tape, colored rip cord and stringent OD requirements.

We look forward to meeting the challenges of this particular head on and delivering on schedule.

If you have a wire & cable inquiry for an industrial project, please feel free to contact us at sales@aerospacewire.com or 1800-395-0200.
