

## SPOTLIGHT - WE ARE READY TO REACH!

Are your customers looking for REACH? Well we are definately ready. We are proud to announce that all materials we use to manufacture our wire and cable is RoHS and now REACH compliant. Materials include, FEP, PFA, ETFE, LS PVC and E-CTFE.

Reach stands for (Registration, Registration, Evaluation of Chemicals), created to accomplish the following objectives:

- Protection of human health and the environment
- Increased transparency
- Integration with international efforts
- Promotion of non-animal testing
- Conformity with EU international obligations under the WTO

## AEROSPACE TAKES PART: RALLIES FOR NORTH SHORE LIJ

It was a hot and steamy August afternoon, but that didn't stop over a hundred tennis fanatics from participating and watching the first annual Aerospace Wire & Cable tennis tournament. The proceeds from the tournament were donated to North Shore LIJ Health System located in Great Neck, NY. Specifically the funds were donated to Cohen's Children's Medical Center of New York. Once completed this mammoth children's hospital will serve over 1.8 million childrens in Queens, Long Island, and Brooklyn. **Click here** to check out our blog, Aerospace Takes Part and see some of the pictures from this great event. Look foward to hosting this again next year!

## NEW PRODUCTION: ULTRA THIN 30AWG HOOK UP WIRE

### Project

Manufacture a 30AWG Silver Plated Copper prototype hook up wire with a 3 mil FEP wall. Previous minimum thickness was a 6 mil FEP wall.

### Results:

The new production and protype of the ultra thin hook up wire was a success. Further adding to our long list of manufacturing capabilities while demonstrating our ability to customize solutions for our customers.

### Quick Specs:

Conductor: AWG 30 / 7 Silver Plated Copper

Insulation: FEP / Color Can Be Selected

Thickness: 3 Mil Wall

Overall OD: 0.018" nom

**Contact us** for more information about this prototype or if you have an inquiry with special requirements.
